Photography

Backgrounds will be cropped according to a close-up pose or 3/4 length pose.

Spring Portraits For You!

Spring portrait day is approaching. This spring we will be offering a wide assortment of backgrounds for you to choose from. The color of clothing your child is wearing may help influence a background. ***Have your child try different poses at home** and decide on one you prefer. Remember some outfits will affect how the pose will look. The photographer will pose your child unless your child tells them your preference.

All 16 backgrounds on this flyer will be available for your portrait at no additional cost. Mix and match backgrounds for different products or packages (an entire package must be from one background). Remember, grandparents may want a traditional look, while I know your child will appreciate a more contemporary style.

You will see your child on our green background on the proof you receive.

Timeline For Portrait Delivery From Proofs

1. CHP will photograph your child at their school.
2. CHP will deliver your child's proof to the school in approximately 10-14 school days.
3. Proofs may be viewed at home for approximately 7-10 days.
4. Return portrait order to school before deadline.
5. CHP will pick up your portrait order from the school approx. 2 days after order deadline. *(If school does not ask for an extension.)*
6. CHP will deliver your child's portraits to the school within 20 school days after portrait orders are received.

Total timeline is approximately 7-8 weeks after photography date

Providing proofs for you to view actually takes time since there are two deliveries (proofs and portraits) to the school.
